Session Program

2–5 Feb 2026

The search for neutrinoless double-β decay: experimental and theoretical challenges

Session 5

ECT*, Aula Renzo Leonardi
Strada delle Tabarelle 286, I-38123 Villazzano (Trento)

Tuesday 3 February

11:45

Session 5

Session | **Location:** ECT*, Aula Renzo Leonardi, Strada delle Tabarelle 286, I-38123 Villazzano (Trento) | **Convener:** Lotta Jokiniemi

11:45–12:25 **SuperNEMO: double-beta decay searches with a tracker-calorimeter experiment**

Speaker
Yves Lemière

12:25–13:05 **Toward reliable nuclear matrix elements: ab initio theory with uncertainty quantification**

Speaker
Antoine Belley

13:05
