Session Program

2–5 Feb 2026

The search for neutrinoless double-β decay: experimental and theoretical challenges

Round table and discussion: Experimental efforts for NMEs and nuclear-physics data in support of upcoming neutrinoless DBD projects

ECT*, Aula Renzo Leonardi
Strada delle Tabarelle 286, I-38123 Villazzano (Trento)

Wednesday 4 February

16:10

17:10

Round table and discussion: Experimental efforts for NMEs and nuclear-physics data in support of upcoming neutrinoless DBD projects

Session | **Location:** ECT*, Aula Renzo Leonardi, Strada delle Tabarelle 286, I-38123 Villazzano (Trento) | **Conveners:** Stefan Schönert, Lindley Winslow
