Session Program

2–5 Feb 2026

The search for neutrinoless double-β decay: experimental and theoretical challenges

Session 10

ECT*, Aula Renzo Leonardi
Strada delle Tabarelle 286, I-38123 Villazzano (Trento)

Thursday 5 February

09:00

Session 10

Session | **Location:** ECT*, Aula Renzo Leonardi, Strada delle Tabarelle 286, I-38123 Villazzano (Trento) | **Convener:** Javier Menéndez

09:00–09:40 **Outlook on DBD, neutrino physics, and phenomenology**

Speaker
Eligio Lisi

09:40–10:20 **Weak probes to BSM: honing electron capture as a precision tool**

Speaker
Maya Moore

10:20
