Session Program

2–5 Feb 2026

The search for neutrinoless double-β decay: experimental and theoretical challenges

Session 11

ECT*, Aula Renzo Leonardi
Strada delle Tabarelle 286, I-38123 Villazzano (Trento)

Thursday 5 February

11:05

Session 11

Session | **Location:** ECT*, Aula Renzo Leonardi, Strada delle Tabarelle 286, I-38123 Villazzano (Trento) | **Convener:** Emanuele Mereghetti

11:05–11:45

Solution to the uncertainty problem of nuclear matrix element for neutrinoless double-β decay

Speaker
Jun Terasaki

11:45–12:25

Present and future of DBD search with cryogenic calorimeters

Speaker
Matteo Biassoni

12:25
