

QUARK-GLUON PLASMA CHARACTERISATION WITH HEAVY FLAVOUR PROBES

15 November 2021 — 18 November 2021

Hybrid/Mixed

Th...nding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 824093.

ECT*, hybrid format - November the 18th 2021

The program of the week

- Hybrid format does not help in shaping the sessions
 - Time zones: colleagues from both US and Asia participating in remote mode
- From Monday (today) to Thursday evening
 - Short (and late) morning sessions with talks and discussions
 - Extended afternoon sessions
- Agenda at this indico page

Aula Renzo Leonardi, ECT - Trento*

12:30 - 13:30

The program of the week

□ Agenda at this indico page

<https://indico.ectstar.eu/event/102/timetable/#20211115>

On Thursday two dedicated sessions: comparison of transport codes

Coffee break

Aula Renzo Leonardi, ECT - Trento*

16:30 - 17:00

Session devoted to comparison of Transport (in the QGP) Codes

Chair P. Gossiaux

Aula Renzo Leonardi, ECT - Trento*

17:00 - 19:00

This project has

ent No 824093.

Hybrid mode: recommendations

- We have to optimize time for talks, discussions and interactions
 - Speakers: please try to spare more than 5' for questions just after your talk
 - **Workshop room**: a microphone will be circulated in the audience for asking questions
 - (session chair will be on-site)
 - **Remote connections**: use the "Raise Hand" option of Zoom and/or write your questions in the Chat window

Discussion time

- A slot of 30' at the end of each day
 - We may arrive tired at that time
 - It may happen that discussion has to be cut short during the afternoons
 - If your question/argument was not taken, please use this shared document to keep track of it for next day discussion

https://docs.google.com/spreadsheets/d/1nOQGsr9FUsFVV0QHf_mCEKV-47rxqwrrEaU-T0GkcL4/edit?usp=sharing

- Extra 30' time the day after (12:00-12:30)

Support

- Thanks to ECT* and STRONG 2020 it was possible to provide full support for all in person participants.
