

Session Program

8–12 Sept 2025

Analytic structure of QCD and Yang-Lee edge singularity

Generic analytic structure near second-order PT

ECT*, Aula Renzo Leonardi
Strada delle Tabarelle 286, I-38123 Villazzano (Trento)

Wednesday 10 September

09:00
10:00
10:30
12:30

Generic analytic structure near second-order PT Session Location: ECT*, Aula Renzo Leonardi, Strada delle Tabarelle 286, I-38123 Villazzano (Trento) Convener: Christian Schmidt	
09:00–10:00	tba Speaker Mikhail Stephanov
Generic analytic structure near second-order PT Session Location: ECT*, Aula Renzo Leonardi, Strada delle Tabarelle 286, I-38123 Villazzano (Trento) Convener: Christian Schmidt	
10:30–11:30	Lee Yang zeros, Pade resummations and proton number cumulants Speaker Gokce Basar
11:30–12:30	Universality of the Yang-Lee edge singularity and its applications Speaker Fabian Rennecke
