

Heavy-Flavor Transport in QCD Matter

Friday 26 April 2019 - Tuesday 30 April 2019

ECT* - Trento

Book of Abstracts

Contents

Welcome and outline of the objectives	1
Experimental overview	1
Heavy-flavor probes and Lattice QCD	1
Report on EMMI-RRTF on open HF	1
Report of HQ-jet working group	1
Bulk evolution models for heavy flavor	1
HF in the Strong 2020 initiative	1
Discussion of homework results	1
Discussion of homework results	2
HQ diffusion coefficient from Lattice QCD	2
TAMU T-matrix	2
Nantes pQCD*	2
PHSD	2
LBNL	2
SCET	2
Frankfurt	3
Duke	3
Catania	3
CUJET	3
Plenary discussion	3
Plenary discussion and preliminary wrap-up	3
SHM	3
PHSD	4

Catania	4
SCET	4
Frankfurt	4
TAMU	4
LBNL	4
Duke	4
Nantes	5
CUJET	5
Plenary discussion	5
Plenary discussion and preliminary wrap-up	5
SCET	5
LBNL	5
Nantes	5
Duke	6
PHSD	6
TAMU	6
Catania	6
CUJET	6
Plenary discussion	6
Plenary discussion and preliminary wrap-up	6
Plenary discussion	7
Future actions and closing	7
CUJET	7
CUJET	7

DAB-MOD	7

Overview Session / 1

Welcome and outline of the objectives

Overview Session / 2

Experimental overview

Corresponding Author: andrea.dainese@pd.infn.it

Overview Session / 3

Heavy-flavor probes and Lattice QCD

Corresponding Author: petreczk@quark.phy.bnl.gov

Overview Session / 4

Report on EMMI-RRTF on open HF

Corresponding Author: minhephys@gmail.com

Overview Session / 5

Report of HQ-jet working group

Corresponding Author: aichelin@subatech.in2p3.fr

Overview Session / 6

Bulk evolution models for heavy flavor

Corresponding Author: bass@duke.edu

Overview Session / 7

HF in the Strong 2020 initiative

Corresponding Authors: giuseppe.bruno@ba.infn.it, mgiacalo@cern.ch

Overview Session / 8

Discussion of homework results

Overview Session / 9

Discussion of homework results

Heavy-quark diffusion and Lattice QCD / 10

HQ diffusion coefficient from Lattice QCD

Corresponding Author: viljami.leino@tum.de

Heavy-quark diffusion and Lattice QCD / 11

TAMU T-matrix

Corresponding Authors: rapp@comp.tamu.edu, minhephys@gmail.com

Heavy-quark diffusion and Lattice QCD / 12

Nantes pQCD*

Corresponding Authors: pol-bernard.gossiaux@subatech.in2p3.fr, aichelin@subatech.in2p3.fr, nahrgang@subatech.in2p3.fr

Heavy-quark diffusion and Lattice QCD / 13

PHSD

Corresponding Authors: song@fias.uni-frankfurt.de, brat@th.physik.uni-frankfurt.de

Heavy-quark diffusion and Lattice QCD / 14

LBNL

Corresponding Authors: xnwang@bl.gov, weiyaoke@gmail.com, sshan.cao@gmail.com

Heavy-quark diffusion and Lattice QCD / 15

SCET

Corresponding Author: ivitev@lanl.gov

Heavy-quark diffusion and Lattice QCD / 16

Frankfurt

Corresponding Author: hees@th.physik.uni-frankfurt.de

Heavy-quark diffusion and Lattice QCD / 17

Duke

Corresponding Authors: wf39@duke.edu, bass@duke.edu

Heavy-quark diffusion and Lattice QCD / 18

Catania

Corresponding Authors: greco@lns.infn.it, santosh@iitgoa.ac.in, salvatore.plumari@ct.infn.it

Heavy-quark diffusion and Lattice QCD / 19

CUJET

Corresponding Author: liaoji@indiana.edu

Heavy-quark diffusion and Lattice QCD / 20

Plenary discussion

Heavy-quark diffusion and Lattice QCD / 21

Plenary discussion and preliminary wrap-up

Heavy-quark hadronization and hadronic phase / 22

SHM

Corresponding Authors: p.braun-munzinger@gsi.de, stachel@physi.uni-heidelberg.de, andronic@uni-muenster.de

Heavy-quark hadronization and hadronic phase / 23

PHSD

Corresponding Authors: song@fias.uni-frankfurt.de, brat@th.physik.uni-frankfurt.de

Heavy-quark hadronization and hadronic phase / 24

Catania

Corresponding Authors: greco@lns.infn.it, santosh@iitgoa.ac.in, salvatore.plumari@ct.infn.it

Heavy-quark hadronization and hadronic phase / 25

SCET

Corresponding Author: ivitev@lanl.gov

Heavy-quark hadronization and hadronic phase / 26

Frankfurt

Corresponding Author: hees@th.physik.uni-frankfurt.de

Heavy-quark hadronization and hadronic phase / 27

TAMU

Corresponding Authors: minhephys@gmail.com, rapp@comp.tamu.edu

Heavy-quark hadronization and hadronic phase / 28

LBNL

Corresponding Authors: xnwang@bl.gov, weiyaoke@gmail.com, sshan.cao@gmail.com

Heavy-quark hadronization and hadronic phase / 29

Duke

Corresponding Authors: wf39@duke.edu, bass@duke.edu

Heavy-quark hadronization and hadronic phase / 30

Nantes

Corresponding Authors: nahrgang@subatech.in2p3.fr, aichelin@subatech.in2p3.fr, pol-bernard.gossiaux@subatech.in2p3.fr

Heavy-quark hadronization and hadronic phase / 31

CUJET

Corresponding Author: liaoji@indiana.edu

Heavy-quark hadronization and hadronic phase / 32

Plenary discussion

Heavy-quark hadronization and hadronic phase / 33

Plenary discussion and preliminary wrap-up

Heavy-quark gluon radiation / 34

SCET

Corresponding Author: ivitev@lanl.gov

Heavy-quark gluon radiation / 35

LBNL

Corresponding Authors: xnwang@bl.gov, sshan.cao@gmail.com, weiyaoke@gmail.com

Heavy-quark gluon radiation / 36

Nantes

Corresponding Authors: pol-bernard.gossiaux@subatech.in2p3.fr, aichelin@subatech.in2p3.fr, nahrgang@subatech.in

Heavy-quark gluon radiation / 37

Duke

Corresponding Authors: wf39@duke.edu, bass@duke.edu

Heavy-quark gluon radiation / 38

PHSD

Corresponding Authors: song@fias.uni-frankfurt.de, brat@th.physik.uni-frankfurt.de

Heavy-quark gluon radiation / 39

TAMU

Corresponding Authors: rapp@comp.tamu.edu, minhephys@gmail.com

Heavy-quark gluon radiation / 40

Catania

Corresponding Authors: greco@lns.infn.it, santosh@iitgoa.ac.in, salvatore.plumari@ct.infn.it

Heavy-quark gluon radiation / 41

CUJET

Corresponding Author: liaoji@indiana.edu

Heavy-quark gluon radiation / 42

Plenary discussion

Heavy-quark gluon radiation / 43

Plenary discussion and preliminary wrap-up

Bulk evolution and future plans / 44

Plenary discussion

Bulk evolution and future plans / 45

Future actions and closing

Heavy-quark gluon radiation / 46

CUJET
