

# Nuclear and Atomic Transitions as Laboratories for High Precision Tests of Quantum Gravity inspired Models

Contribution ID: 3

Type: **not specified**

## The equivalence principle and inertial-gravitational decoherence

*Thursday 29 July 2021 15:00 (35 minutes)*

**Presenter:** TORRIERI, Giorgio (State University of Campinas, Brazil)

**Session Classification:** Tests of QG and NCQG, including discrete symmetries, GW and astrophysics
