

Nuclear and Atomic Transitions as Laboratories for High Precision Tests of Quantum Gravity inspired Models

Contribution ID: 6

Type: **not specified**

Atomic transition test of PEP as a constraint to the non-commutativity emergence scal

Tuesday 27 July 2021 15:45 (20 minutes)

Presenter: PISCICCHIA, Kristian (Centro Fermi - Museo Storico della Fisica e Centro Studi e Ricerche “Enrico Fermi)

Session Classification: Deformation of the Lorentz symmetry and PEP violations
